PROFESSIONAL SUMMARY

Frontend Developer with 3+ years of experience architecting and scaling enterprise web applications across Aviation, EdTech, FinTech, eCommerce, and AI domains. Specialized in React.js, TypeScript, and Next.js, with hands-on experience in micro-frontend architecture, AI agent platform development, geospatial integrations (ArcGIS), and performance optimization. Currently driving frontend architecture and mentoring junior developers on an AI-powered agent platform supporting automated voice, SMS, and email workflows. Skilled at translating complex business requirements into scalable, reusable component systems using modern state management and clean API design.

CORE SKILLS

Languages & Core: JavaScript (ES6+), TypeScript, HTML5, CSS3
Frontend & State: React.js, Next.js, Redux, Zustand, React Query
Styling & UI: Tailwind CSS, Material UI, Responsive Web Design
Backend & Data: Node.js, Express.js, MongoDB, PostgreSQL, REST APIs, Zod
Architecture & Practice: Micro-Frontend Architecture, Agile/Scrum, Reusable Component Design, Code Review & Mentoring
Tools & Cloud: Git, GitHub, AWS, Azure, Axios, ArcGIS Maps

PROFESSIONAL EXPERIENCE

- Frontend Developer | Verveo Solutions Pvt Ltd | Bengaluru

Nov 2025 – Present

 - Leading frontend development of an AI Agent Platform similar to Retell AI and Outreach, supporting AI-powered inbound/outbound calls, SMS, email campaigns, knowledge bases, and workflow automation, using React.js and TypeScript.
 - Also built an enterprise Airport Revenue Management Platform from scratch as lead frontend developer for US-based clients, covering lease management, rent collection, revenue tracking, reporting dashboards, and airport operational analytics.
 - Integrated ArcGIS Maps for real-time airport space management, geospatial visualization, and interactive map-based asset allocation.
 - Contributed to multiple US FinTech products, delivering scalable frontend solutions and complex business workflows.
 - Driving frontend architecture, reusable component development, code quality standards, and mentoring junior developers.
- Software Development Engineer I | Navneettoptech | Bengaluru

Sep 2024 – Nov 2025

 - Contributed to a large-scale Learning Management System (LMS) used by schools across India, implementing complex business logic and dynamic content management with React.js, Node.js, and TypeScript.
 - Improved frontend performance through lazy loading, code splitting, and state management best practices, reducing load times and improving perceived responsiveness.
- Front-End Developer | Digiblock Network Solutions | Remote

Jan 2024 – Aug 2024

 - Built two cryptocurrency-based platforms end-to-end using Next.js (frontend) and Node.js (backend).
 - Developed a SaaS application in React.js with a reusable, well-documented component library, prioritizing clean and maintainable code.
 - Delivered features within tight timelines as part of an agile team, balancing speed with code quality.
- MERN Stack Web Development Intern | Luminar Technolab | Ernakulam

May 2023 – Dec 2023

 - Developed full-stack web applications using React.js, Node.js, MongoDB, and Express.js, strengthening debugging, testing, and deployment skills.
 - Gained hands-on experience delivering dynamic projects in an agile development environment.

EDUCATION

Bachelor of Technology
APJ Abdul Kalam Technological University | Kottayam, Kerala | Aug 2016 – May 2020
